ONYX thrive 211

Print Workflow Software That Can Increase Your Shop's Efficiency and Profit

ONYX Thrive™ software is a full featured, scalable PDF workflow solution based on the Adobe® PDF Print Engine and optimized for superior performance for all sizes of print providers. ONYX software combines the proven Onyx Graphics technology platform with innovative tools and enhancements that simplify color printing workflow, improves output predictability, and increases shop profitability.

Predictability

- *Reduces prepress cycles and rework with 100% Adobe technology throughout, enabling you to print it right the first time*
- *Superior output quality with innovative color technologies developed by ONYX color scientists specifically for wide format applications*
- *Color managed preview enables you to see it before you print it*

ADOBE® PDF PRINT ENGINE

ONYX COLOR

"We've always produced great, uncompromising products; however, it wasn't until switching to ONYX that we really started to have a leg up on the competition. Our color has never been better, and it shows on the bottom line."

Tyler Nylund - Hightech Signs

Performance

- *With 2 RIPs included, print performance is optimized enabling more production in less time*
- *Utilizes multi-thread computer processing to maximize your ripping power*

Scalability

- *Flexible network-based site licensing provides a solution to grow with your business*
